

Good practices and potentials in educational inclusion and desegregation

Inclusion4Schools International Conference 2022

7-8 November 2022 – Budapest, Hungary

Involving two other EU-funded research projects, Inclusion4Schools is organising an international conference to bring together researchers, practitioners, civil society organisations, journalists, and policy-makers to discuss the challenges and opportunities of education to reverse inequalities, to interpret existing narratives, national competences and European initiatives to present good practices resulting from the ongoing projects, and to inform political decision-making processes. In view of the COVID pandemic, this event offers a rare opportunity to engage with various stakeholders across Europe.

Preliminary draft agenda

7 November 2022

10:30-11:00 Registration

11:00-12:00 Opening Session

Welcome note
